IDENTIFIERS	*University of Alaska

ABSTRACT

The first annual Statistical Abstract for the University of Alaska System provides factual information for use by the Board of Regents, college administrators, and public officials in the development of university plans and programs. Topics cover: enrollments, programs and awards, faculty and staff, facilities and space, fiscal analysis, comparative statistics, and special projects. Statistics are given for: fall 1985 credit headcount by full-time/part-time status, sex, and race; fall 1985 credit headcount by major, sex, race, and university; fiscal year (FY) correspondence study activity; FY 1986 degrees/certificates by race, sex, and program; fall 1985 tenured and nontenured instructional faculty by race and sex; fall 1985 full-time instructional faculty and research faculty by tenure status, rank, and sex; fall 1985 library statistics; fall 1985 instructional space utilization by building, hour of day, and day of week; fall 1985 capacity of residential buildings; FY 1983-1986 unrestricted educational and general revenues and expenditures; FY 1983-1986 restricted current funds revenues and expenditures; FY 1983-1986 state financial aid to students; and FY 1986 faculty salary data by major field. PREFACE

Introduction

This first annual STATISTICAL ABSTRACT for the University of Alaska System is intended to be factual rather than interpretive in nature for use by the Board of Regents, institutional administrators, and public officials in the development of University plans and programs. Throughout the book, campus and other administrative component abbreviations of the UA System have been used. The diagram below defines the major instructional unit abbreviations used. In addition, the following abbreviations are found: SPS - Statewide Programs and Services; RE - Rural Education; CES - Cooperative Extension Service; FITC - Fisheries Industrial Technology Center; CCREE - Community College and Rural Education and Extension, comprised of CCC, ICC, KPCC, KECC, KOCC, KUCC, MSCC, NWCC, PWSCC, TVCC, RE, CES, and FITC; and MAU - Major Administrative Units, comprised of UAA, UAF, UAJ, ACC, CCREE, and SPS.

Future Inclusions

Assembly of the material presented involved many judgements regarding inclusion, exclusion and form of presentation. Suggestions concerning additions, modifications or corrections to this book will be welcome and should be addressed to the Statewide Office of Institutional Research.

Acknowledgements

The production of the STATISTICAL ABSTRACT would not have possible without the efforts made by staff at the following University and State offices: Admissions and Records; Institutional Research; Academic Affairs; UACN; Facilities Planning; Accounting; Budget; Finance; UA Libraries; ACPE; DOE; and DOL. In particular the following individuals played key roles in the development of the final report and special thanks are extended: Frank Spargo, Brian Rogers, James Lynch, Lee Overton, Paul Stout, John Wasileski, Mary Carlson, Wayne Dern, Janet Johnson, Ann Tremarello, Pam Bronson, Linda Simpson, Dennis Clark, Jo Gottschalk, Thomas Healy, Chris Butzen, Helen Bernel, Michelle Wood, Ruth Carlson, Marilyn Lehman, Floyd Burnett, Robert Geiman, Jeannie Phillips, Ralph Lynch, Jeffrey Yauney, Fred Ali, Deb McWilliams, Steve Brown, Ruth Friemering, Jerry Trout, and Pat Ivey.

Table Definitions

FTE	Full-Time Equivalent Student. A hypothetical student who enrolls in 15 undergraduate or 12 graduate credit hours per semester. The FTEs in this table are course-level based (not student-level based) indicators of productivity.
SCH	Student Credit Hour. A unit of measure that represents one student engaged in an activity for which one hour of credit for a degree or other certificate is granted upon successful completion.

Table Definitions

FTE	Full-Time Equivalent Student. A hypothetical student who enrolls in 15 undergraduate or 12 graduate credit hours per semester. The FTEs in this table are course-level based, not student-level based indicators of productivity.
SCH	Student Credit Hour. A unit of measure that represents one student engaged in an activity for which one hour of credit for a degree or other certificate is granted upon successful completion.

Table Definitions

FIRST-TIME FRESHMEN	Students enrolled in an undergraduate degree or certificate program who are attending a higher education institution for the first time.
FIRST-TIME GRADUATES	Students enrolled in a graduate degree or certificate program for the first time.
FULL-TIME STUDENTS	Undergraduates or special student undergraduates taking a course load of 12 or more student credit hours or graduate students taking a course load of 9 or more student credit hours in a semester.
GRADUATE STUDENTS	Students enrolled in graduate degree or certificate programs.
PART-TIME STUDENTS	Undergraduates or special students undergraduate taking less than a course load of 12 student credit hours or graduate students taking less than a course load of 9 student credit hours in a semester.
SPECIAL STUDENTS	Students not enrolled in any degree or certificate program. Also referred to as Unclassified Students.
UNDERGRADUATES	Students enrolled in undergraduate degree or certificate program

Table Definitions

ADMINISTRATIVE STAFF	Full-time employees whose assignments require primary (and major) responsibility for management of the institution, or a customarily recognized department or subdivision thereof. Included are the President, Chancellors, Vice Presidents, Vice Chancellors, Deans and other officers of academic departments whose principal activity is administrative in nature. Supervisory personnel of the Technical, Clerical, Skilled Craft, and Maintenance forces are reported within those specific categories.
INSTRUCTIONAL FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting instruction as a principal activity and may also include research and public service as additional activities.
RESEARCH FACULTY	Full-time employees whose primary assignments customarily are made for the purpose of conducting research as a principal activity. Public service and instruction may be performed as additional activities.
PROFESSIONAL STAFF	Full-time employees whose assignments require either college graduation or experience of such kind and amount as to provide a comparable background, and who are not included in the Administrative, Faculty, Clerical, Technical, Skilled Crafts, or Maintenance categories.
CLERICAL STAFF	Full-time employees whose assignments typically are associated with clerical activities or are specifically of a secretarial nature.
TECHNICAL STAFF	Full-time employees whose assignments require specialized knowledge or skills which may be acquired through experience or academic work such as is offered in many 2-year technical institutes, junior colleges or through equivalent on-the-job training.
SKILLED CRAFTS STAFF	Full-time employees whose assignments typically require special manual skills and a thorough and comprehensive knowledge of the processes involved in the work, acquired through on-the-job training and experience or through apprenticeship or other formal training programs.
MAINTENANCE STAFF	Full-time employees whose duties result in or contribute to the comfort, convenience and hygiene of personnel and the student body or which contribute to the upkeep and care of buildings, facilities or grounds of the institutional property.

NOTE: This table contains only data on those buildings inventoried by Fall 1985. FP&C inventoried the instructional space first and are now inventorying the remaining buildings. Space use is constantly changing so it is possible for the NUSF reported here to vary by a small amount with Table 4.2.

Note: Based on a six-day week, fifteen-hour day, for credit course activity only. Sufficient UA owned instructional space does not exist for the purposes of utilization analysis at CCC, ICC, PWSCC, RE and TVCC; they are not included.

Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use..		
DAYTIME/EVENING CLASS	Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.		
GUIDELINE	A University space utilization guideline adopted by the Board of Regents as a reference measure for optimum usage under optimum conditions:	**In Classrooms**	**In Labs/Shops**
	Total Available Hours of Instruction/Day	45.0	45.0
	Total Available Hours of Instruction/Evening	25.0	25.0
	Optimum Weekly Scheduled Hours/Day	30.0	20.0
	Optimum Weekly Scheduled Hours/Evening	16.7	11.1
	Optimum Weekly Percent Station Utilization/Day & Evening	60%	80%
INSTRUCTIONAL SPACE	Limited to regularly scheduled classrooms and labs/shops.		
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.		
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.		
UTILIZATION	Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.		
WEEKLY ROOM CONTACT HOURS	The total number of hours per week a room is regularly scheduled for use.

Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use..
DAYTIME/EVENING CLASS	Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.
GUIDELINE	A University space utilization guideline adopted by the Board of Regents as a reference measure for optimum usage under optimum conditions:

	In Classrooms	In Labs/Shops
Total Available Hours of Instruction/Day	45.0	45.0
Total Available Hours of Instruction/Evening	25.0	25.0
Optimum Weekly Scheduled Hours/Day	30.0	20.0
Optimum Weekly Scheduled Hours/Evening	16.7	11.1
Optimum Weekly Percent Station Utilization/Day & Evening	60%	80%

INSTRUCTIONAL SPACE	Limited to regularly scheduled classrooms and labs/shops.
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.
UTILIZATION	Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.
WEEKLY ROOM CONTACT HOURS	The total number of hours per week a room is regularly scheduled for use.
WEEKLY STUDENT CONTACT HOURS	The total number of hours per week a room is regularly scheduled for use.

Distribution of Weekly Room Contact Hours for Labs/Shops

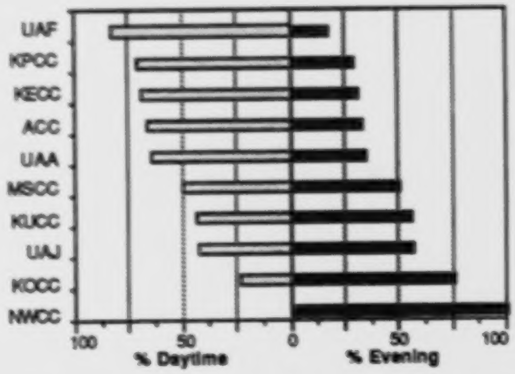

Table Definitions

CLASSROOMS	Regularly scheduled rooms for general purpose instruction not requiring special-purpose equipment for student use.
DAYTIME/EVENING CLASS	Any class that begins after 7:30 a.m. and before 5:00 p.m. is a daytime class. Any class that begins at or after 5:00 p.m. is an evening class.
LABS/SHOPS	Regularly scheduled instructional space containing specialized equipment that limits the room's use.
STUDENT STATION	The average space required to provide instruction to one student. Station size varies by type of station and includes both circulation space and instructor space.
USAGE FACTOR	The product of the Average Weekly Room Hours times the Percent Student Station Utilization adjusted so that a value of 1.00 represents the University's guideline usage.
UTILIZATION	Utilization refers to measuring the actual usage (activity level) of an area (room or student station) compared to optimum usage of the area.

#1 RESIDENT STUDENT SOURCE. High school graduates per 1,000 population. This is the primary source of entering freshmen at public institutions in the state and is therefore the best single starting base for deriving total enrollments. The state's primary higher education responsibility is to provide post-secondary educational opportunities to its own resident high school graduates.

#2 ATTENDANCE EXPANSION RATIO. Annual full-time-equivalent enrollment in public institutions of higher education per high school graduate. This ratio measures the degree to which a state provides attractive and accessible opportunities for higher education to both in-state and out-of-state students relative to the size of its resident student source. High ratios indicate states heavily in the "business" of higher education compared to their basic responsibility to high school graduates.

#3 TAX CAPACITY. The potential of state and local governments to obtain revenues for public purposes through various kinds of taxes. Measured by a "representative tax system" that defines the tax capacity of a state and its local governments as the amount of revenue they could raise if all 50 state-local systems applied identical tax rates (national averages) to their respective tax bases.

#4 TAX EFFORT. State and local tax revenue collected as a percentage of state and local tax capacity. Tax effort measures, as a percentage, how much of the state and local government tax capacity is actually used. The tax revenue collected for all states equals total tax capacity nationwide, so that the national effort, by definition, is 100 percent. Effort measures for the individual states indicate how they compare with the national average.

#5 ALLOCATION TO PUBLIC HIGHER EDUCATION. State and local tax revenue appropriated or levied for current operating educational expenses of public institutions. This ratio suggests the relative importance and requirements of financing public student education to the funding of other public services in the state and local government budgets. The ratio for total appropriations is shown in ( ).

#6 TUITION FACTOR. Ratio of state and local government education appropriations plus student tuition revenue to state and local government education appropriations. This ratio sugests the relative importance of student tuition as a funding source compared to state-local appropriations. High ratios may reflect a large proportion of out-of-state students paying high non-resident tuition.

ESTIMATED NET TUITION REVENUES PER STUDENT. Tuition revenues of public institutions per annual FTE student. Indicates average tuition (less state appropriated student aid) paid by all resident and non-resident students without recognizing the types of institutions attended. Tuition related to to the state system's tuition funding requirements is reported as an index.

EDUCATION APPROPRIATIONS PER STUDENT. State and local tax revenue appropriated for current operating educational expenses of public institutions per annual FTE student. Indicates average state support to individual students without taking into account the types of institutions attended. The ratio of educ. approp's/student to tax capacity/capita indicates a state's funding achievement relative to potential ability to pay. Appropriations for research, agriculture, and medical are reported as a percent of total approp's to suggest relative importance, and per capita as a need measure.

COLLECTIVE FINANCIAL ACTIONS. The combined actions are the factors that establish the degree to which the potential tax revenues per student are actually utilized to achieve the support level provided. States with a very high percentage are making a substantial combined tax effort, allocation to education, and tuition charge to finance public institutions.

TABLE 6.3 FY86 Administrative Salary Data by Institution Type

TABLE EXPLANATION: The purpose of CUPA's annual ADMINISTRATIVE COMPENSATION SURVEY is to provide the most current salary data available for college and university administrators. The 1985-86 survey is the ninth year CUPA has conducted this survey on an annual basis. This year's survey focused on reporting data on 99 first-line (primary) positions and 69 second-line (secondary) positions. Selection of surveyed positions was based on an analysis of those positions common to most higher education institutions. In all tables, salaries are those in effect during the Fall of 1985. Salaries are at an annualized, full-time rate; they reflect only actual cash flow earnings, excluding any services contributed without charge. It should be noted that the following salary data are not adjusted for State of Alaska or regional cost-of-living differentials.

SUMMARY OF RESPONDENTS

INSTITUTIONAL CLASSIFICATION	FUNDING SUPPORT Public	Private	TOTAL
Universities	314	140	454
Four-Year Colleges	106	410	516
Two-Year Colleges	426	54	480
Other	80	82	162
TOTAL	926	686	1,612

SUMMARY OF PRIMARY POSITION SALARY INCREASES BY INSTITUTION CLASSIFICATION

INSTITUTIONAL CLASSIFICATION	1985-86 Increase (Decrease)
Universities	6.6 %
Four-Year Colleges	5.6 %
Two-Year Colleges	5.8 %
Two-Year Technical	4.3 %
Other	0.7 %

SUMMARY OF PRIMARY POSITION SALARY INCREASES BY JOB FAMILY

JOB FAMILY	1985-86 Increase (Decrease)
Academic Affairs	6.0 %
Administrative Affairs	5.7 %
External Affairs	4.7 %
Student Affairs	5.2 %
Executive Affairs	7.7 %

Table Definitions

MEDIAN	The middle value in an array of all salaries for the position; half of the salaries are lower than the median and half are higher. The median is considered a more reliable measure than the mean/average because it minimizes the effect of extremely high and low salaries.
1st QUARTILE	Divides salaries below the median into two 25 percent segments.
3rd QUARTILE	Divides salaries above the median into two 25 percent segments. The 1st and 3rd quartiles, therefore, mark the interquartile range; half of all salaries - - the middle 50 percent - - fall within this range.

TABLE 6.3 FY86 Administrative Salary Data by Institution Type (cont.)

PUBLIC UNIVERSITIES WITH FTE ENROLLMENTS OF 4,999 OR LESS (UAA,UAF)

TITLE - PRIMARY POSITIONS	MEDIAN	1st Quartile	3rd Quartile
Chief Executive Officer, System	$71,500	$59,500	$84,996
Chief Executive officer, Single Institution	$68,000	$62,784	$77,040
Executive Vice President	$54,000	$50,033	$58,727

Source: Office of Institutional Research. 1985-86 FACULTY SALARY SURVEY BY DISCIPLINE.
Stillwater: Oklahoma State University, 1986.

Table Definitions

SALARIES	All salaries which are reported in the survey are based on a 9-10 month academic year salary for institutions belonging to the National Association of State Universities and Land-Grant Colleges (NASULGC). Any compensation for summer academic work, fringe benefits or perquisites is not included in the salary data.
FAC MIX PCT	The percent of faculty in a given major field who hold a given academic rank. For example: a FAC MIX PCT factor of .36 for associate professor implies that 36% of the faculty in that major field hold the rank of associate professor.
SALARY FACTOR	For a given rank of a given major field the ratio of the mean average salary to the total mean average salary of all institutions. For example: a Salary Factor of 1.10 for assistant professors if mathematics implies that the mean average salary for assistant professor of mathematics is 110% of the mean average salary for all assistant professors of all institutions.
NEW ASSISTANT PROFESSOR	The grouping of assistant professors who were hired for the first time in the Fall of 1985. All information for this group was included in the ASSISTANT PROFESSOR group for reporting purposes. This group is used mainly for new hiring information.
WESTERN STATES	NASULGC institutions in Alaska, Arizona, California, Hawaii, Idaho, Oregon, Montana,Nevada, North Dakota, South Dakota, Utah, Washington, and Wyoming.

FY75-86 HEPI, CPI, and Faculty Salaries
Changes From Preceding Year

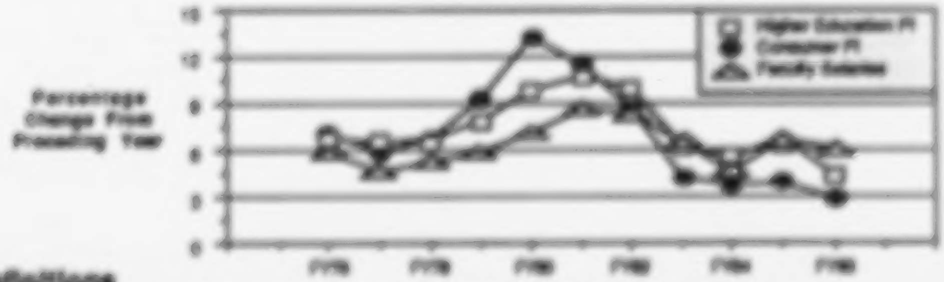

Table Definitions

HIGHER EDUCATION PRICE INDEX (HEPI)	A measure of the average changes in prices of goods and services purchased by colleges and universities through current fund educational and general expenditures.
PRICE INDEX	A price index series measuring the effects of price change on a fixed group of items from a base year. The change in price index values from year to year may be interpreted as the change in dollars required to offset the effects of inflation in buying the same kind of goods and services previously purchased. The indexes here measure price changes from a designated reference date, or base year (either FY67 or FY71) which was given the index value of 100.0. An index value of 110.0 represents a 10% increase over the base year values.
RESEARCH & DEVELOPMENT PRICE INDEX	A measure of the average changes in prices of goods and services purchased by universities through current direct expenditures for sponsored research. Overhead charges apportioned to research are excluded from the index.

NOTE: This section contains one or two page summaries of research efforts during the 1988 Fiscal Year in which results are highlighted. More detailed information on what is summarized on the succeeding pages is available from Statewide Institutional Research. Inquiries are welcomed.

TABLE 7.1 Student Information System Implementation Scenarios

Project Description

[illegible]

Methodology

A four-phase process was followed to facilitate the completion of the analysis in the timeframe provided.

- Phase I - Identify SIS Modifications

[illegible]

- Phase II - Write Modification Specifications and Prioritize

[illegible]

- Phase III - Construct Multiple Implementation Scenarios

[illegible]

- Phase IV - Rank Each Scenario in Relation to Impact Variables

[illegible]

TABLE 7.1 Student Information System Implementation Scenarios (cont.)

Methodology (cont.)

For the SIS project, three levels of PERT detail were designed with different user levels in mind. The first level, the overall project schedule comprised of the highest aggregation of tasks, was targeted primarily for executive administrators, particularly the academic vice chancellors that comprised the SIS management advisory committee, and their need to know the major project events. Tasks at Level 1 were assigned principally to the campus, the data center, or the SIS Office. Level 2 schedules detailed major project tasks by campus and individuals within the data center and the SIS Office. These schedules were targeted primarily to assist various SIS coordinators and programming managers with planning for major task deadlines. The most detailed level, Level 3, listed tasks by individual breakdowns and was coupled with a tasklist, or Gantt chart of assignment descriptions, earliest task start dates, latest task end dates, and estimated task durations. These tasklists were used to structure actual daily work assignments for both users and programmers.

Results

The use of PERT for constructing various levels of project planning, control, and scheduling for different degrees of user involvement has been invaluable for organizing the systems development project, testing alternative plans, revealing the overall dimensions and details of the plan, establishing well-understood management responsibilities, and identifying realistic expectations for the project. Taken together, the various levels of task descriptions functioned to provide a structured process in which to ensure maximum participation from and maximum communication to various users around the state. The large investment in time and effort, therefore, resulted in the highest possible user/programmer integration.

What follows on the next two pages is the LEVEL 1 planning schedule for the current status of the SIS implementation using Apple's MacProject software package. Milestones and task boxes that are in bold print are on the critical path, where a day's slippage in the completion of the task causes a day to be added to the completion date of the entire project. To help read the schedule, the task box key is defined below. [illegible] SIS Planning and Management Series, Document [illegible] 1985. [illegible] pages.

TABLE 7.2 The Question of Cross-Campus Consolidated Tuition

Project Description	The combination of consolidated tuition and cross-campus registration with the three tuition differential factors of campus, course level, and residency had resulted in the creation of a number of administrative problems that needed to be corrected. Difficulties that arose from the current tuition structure included: 1) the complexity, time, and staff needed to determine tuition refunds that are prone to error, particularly with cross-campus registered students, 2) the process of prorating cross-campus registered student tuition revenue to campuses so difficult that it was not being done, therefore building into the system a tuition allocation inequity, 3) the lack of an auditable record of financial transactions, 4) the time and expense necessary to define sufficiently what was being done for the new Student Information System (SIS), and 5) if the current tuition structure was not modified, the fact that SIS is campus-based thereby making error free cross-campus registered student matching between units unlikely, aspects of the tuition calculation and refund process would remain a manual process even with SIS. In order to implement a more efficient and effective tuition calculation now and for the future, while being sensitive to the low tuition philosophy for public higher education in the State and the potential access implications raising tuition might have, the purpose of this study was to propose an alternative University of Alaska tuition policy to resolve principally the administrative consequences of an overly cumbersome tuition structure.
Methodology	Alternative tuition structures were developed and comparisons between the tuition structure that was being used and alternative structures were made such that when a similar set of circumstances were used to run a student through a number of normal activities difficulties to the registration, add/drop procedures, and financial aid procedures would be highlighted. An alternative to the current structure was selected based on the scenario results. The following essential components of the study were also included: (1) a description of how the University compared nationally in its credit tuition practices and some of the problems that result from the strict use of national or regional norms as the principle guide for setting tuition policy in Alaska, (2) a summary of the main points in the higher education debate for low tuition, and (3) an overview of the impact changing tuition rates have had on enrollments.
Results	For the purpose of reducing problems associated with the current tuition structure, the minimum action necessary was shown to be the elimination of the aspect of cross-campus consolidated tuition. The tuition structure shown to be the most satisfactory to overall administrative difficulties in this area turned out to be a straight per credit hour charge tuition structure. Based on this analysis, the Board of Regents approved action to eliminate cross-campus consolidated tuition at the December 1985 Board meeting. The Board did not take action regarding the per credit hour charge tuition model at that time. Table Definitions

CROSS-CAMPUS CONSOLIDATED TUITION	The policy that allowed consolidated tuition levels to be reached by students enrolled at more than one campus. When a student enrolled at a second campus, the total consolidated charge was based on the combined number of credits. The tuition assessed previously was deducted from this amount and the differential was assessed the student. It was the combination of cross-campus consolidated tuition with the campus, course level, and residency tuition differentials that created administrative dilemma.
